**VJS CONSTRUCTION SERVICES ANNOUNCES BEN BERGLES APPOINTED
VICE CHAIR OF ASSOCIATED GENERAL CONTRACTORS OF GREATER
MILWAUKEE CONSTRUCTION LEADERSHIP COUNCIL**

PEWAUKEE, WI (February 15, 2018) – VJS Construction Services (VJS), a general contracting, construction management, and design build firm located in Pewaukee, is pleased to announce Ben Bergles, Senior Project Manager, has been appointed as the Associated General Contractors of Greater Milwaukee Construction Leadership Council (AGC-GM CLC) Vice Chair. Ben will serve a one year term in this position and will become Chair of the AGC-GM CLC in 2019. The AGC-GM CLC is a program that was put in place to address the needs of young professionals in the industry, provide a place to network, receive support, and highlight the future leaders of tomorrow.

Ben has been actively involved in the AGC-GM CLC for five years. He most recently served as Chair of the Events Committee, organizing six events per year. In Ben's new role as Vice Chair, he will focus on garnering membership and increasing member turnout at AGC-GM CLC events. Last year, the AGC-GM CLC became more involved as a campus connector, having chapters at the Milwaukee School of Engineering (MSOE), Marquette University, and their most current campus chapter, the University of Wisconsin-Milwaukee. The AGC-GM CLC will continue to stay actively involved and support these chapters by sharing with the student members information on the profession and internships in various areas of construction.

Ben shared, "As Vice Chair of the Associated General Contractors of Greater Milwaukee Construction Leadership Council, I am excited for the challenge this coming year. I look forward to growing our program and working with the student chapters to increase their involvement and awareness of the construction industry as a whole."

Founded in 1947, VJS Construction Services is one of Wisconsin's top ten general contractors, construction managers, and design builders. The company specializes in educational facilities, senior living facilities, libraries, sophisticated religious structures, corporate office buildings, manufacturing facilities, and healthcare facilities.
