**VJS CONSTRUCTION SERVICES ANNOUNCES CHAD BATHKE APPOINTED PRESIDENT  
OF ASSOCIATED GENERAL CONTRACTORS OF GREATER MILWAUKEE**

**PEWAUKEE, WI (February 15, 2018)** – VJS Construction Services (VJS), a general contracting, construction management, and design build firm located in Pewaukee, is pleased to announce Chad Bathke, Partner and Chief Operating Officer, has been appointed as the 2018 President of the Associated General Contractors of Greater Milwaukee (AGC). Chad has served on the AGC of Greater Milwaukee Board of Directors since 2015. The mission of the AGC of Greater Milwaukee is to promote, educate and interact with their membership by delivering exceptional value through innovative programming and the highest quality service.

Chad began his involvement with the AGC of Greater Milwaukee over 15 years ago through what, at the time, was the Young Constructors Forum (YCF). He eventually became the Chair for the YCF of Greater Milwaukee and on to Chair the Construction Leadership Council nationally through the AGC of America. Chad remains active with the AGC of America as a member of the Consulting Constructors Council of America.

Workforce development is at the forefront of the AGC both locally and nationally. According to Chad, “Partnerships with community colleges and high schools, private funding for craft training, making it easier for Veterans to get into the industry, and engaging public schools and students as early as middle school are some examples of the AGC’s initiatives at the national level to assist with workforce development.”

“I am honored to serve as the 2018 AGC of Greater Milwaukee President. I look forward to continued growth, education and fellowship for all of the AGC of Greater Milwaukee members and to assisting those looking to stay informed with what is happening within our industry,” said Chad.

Founded in 1947, VJS Construction Services is one of Wisconsin’s top ten general contractors, construction managers, and design builders. The company specializes in educational facilities, senior living facilities, libraries, sophisticated religious structures, corporate office buildings, manufacturing facilities, and healthcare facilities.
